SUMMARY OF THE REASONS FOR DECISION:

The computer printout entitled *Exhibit 36 4 of 9\D\teenie sluts\internetporngirls2\miz.bmp* is classified as:
Objectionable.

This classification is because the publication tends to support the exploitation of children and young persons for sexual purposes, and because it also supports the use of violence to compel a person to submit to sexual conduct.

The computer printout consists of text and a colour photographic image. The image depicts a girl tied and gagged in a chair in the corner of a room. Her dress is partly pulled down to expose her breasts. The age of the subject is not clear, but she appears to be aged in her mid-teens. The Classification Office considers that the main purpose of the publication is the titillation of persons with a prurient interest in children or young persons.

This classification places a restriction on the freedom of expression outlined in the New Zealand Bill of Rights Act 1990 (NZBR Act). The result of the publication falling within the criteria of s3(2) of the Films, Videos, and Publications Classification Act 1993 (FVPC Act) is prescribed by law, in accord with Parliament's intention that publications to which s3(2) criteria apply should be banned so as to prevent injury to the public good.
